

Rx Rewards

MEMBER INCENTIVE PROGRAM

The Rx Rewards program from Rx Savings Solutions provides a financial incentive for members to switch to a lower cost alternative.

How Rx Rewards work

Rx Savings Solutions identifies savings opportunities and financial incentives to the member in their Rx Savings Solutions portal. When savings for a prescription are less than \$20 for the member and plan savings are greater than \$200, the member will receive a \$100 Visa® giftcard¹ if they make the switch to the less expensive drug. Members can engage Rx Savings Solutions through their portal or Pharmacy Support to switch their medication.

Why choose Rx Rewards

- Incentivizes members to make a drug switch that results in group savings
- Group can implement Rx Rewards at no additional cost
- Available to self-funded groups²

Contact your **Premera** account representative or producer for more information about Rx Rewards.

¹Groups are responsible for tax implications.

²Groups must have an integrated pharmacy benefit with Premera.
